If you can't find us on Monday, August 17 call (480) 620-5323.

It will be hot so bring water, hat and sunblock lotion. We will have signs and banners about the war. This action is to focus on the war in Afghanistan and the continuing escalation of hostilities- let's stay focused on our message of peace with justice. We are there to nonviolently oppose the wars.

While we oppose the President's escalation of the Afghanistan war, the majority of End the War Coalition participants support many of President Obama's policies. At this protest we want to clearly distinguish ourselves from those in complete disagreement with President Obama. However, as abolitionist Frederick Douglas explained, "Power concedes nothing without a demand. It never did and it never will."

Traffic will be congested near the convention center Take public transportation or get dropped off nearby and walk.
